

# User Stories v5

- Epics
- User Stories and Acceptance Criteria
  - Addition to sprint backlog
  - Priorities
  - User Stories Table

## Epics

Below is a list of epics and their ID. These form headings for the user stories in the below table

ID	Epics
1	Perform Relationship Assessment
2	Get help to deal with abusive relationships
3	Collect data for research
4	Modify site

## User Stories and Acceptance Criteria

User stories and their acceptance criteria are given below.

User stories are added to the [Product Backlog](#) as part of Sprint Planning, where they are decomposed down into manageable 'tasks', and given a 'difficulty' (story points).

### Addition to sprint backlog

User stories are colour coded based on when they were added to a sprint backlog:

Sprint 1 Backlog
Sprint 2 Backlog
Sprint 3 Backlog
Sprint 4 Backlog

## Priorities

Priority is suggested by the product owner based on communication with the client (and potentially supervisor), and then corroborated by the whole team during sprint planning.

Priority Level	Interpretation
High	High Priority. The product MUST have these functionalities to be viable
Med	Medium Priority. The product SHOULD have these functionalities, but are not absolute core to the product being viable
Low	Low Priority. The product COULD have these additional functionalities, but given the scope of the project, they are less important than Medium Priority tasks.

### User Stories Table

User Story ID	As a <Role>	I can <do something>	So that <achieve some goals>	Story Points	Priority	Acceptance Criteria			
						ID	Given	When	Then
Epic 1 - Perform Relationship Assessment									

US1.1	As a Visitor	I want to conduct various surveys to help me understand about my relationship and the dangers I may be facing	so that I can get help based on my current situation and provide information to researchers	13	High	1.1.1	I am on the website	I select the option to complete a survey	I am taken to the first page of the survey
						1.1.2	I am on the survey page	I complete all of the questions and hit 'complete'	I am taken to a results page showing me
US1.2	As a Visitor	I want to conduct a relationship health survey	so that I can understand if the relationship I am in is 'healthy', or abusive	5	High	1.2.1	I have visited the i-Decide website	I click the relationship health survey button	I can complete the relationship health survey
						1.2.2	I have completed the relationship health survey	I click the 'view results' button	I am shown statistics about the health of my relationship
US1.3	As a Visitor	I want to conduct a safety survey	so that I can understand the potential risks to my safety presented by my relationship	5	High	1.3.1	I have visited the i-Decide website	I click the safety survey button	I can complete the safety survey
						1.3.2	I have completed the safety survey	I click the 'view results' button	I am shown information about how safe my current relationship is
US1.4	As a Visitor	I want to conduct a priorities survey	so that I can determine how I value important factors in my life, and how my relationship compares to other factors	5	High	1.4.1	I have visited the i-Decide website	I click the priorities survey button	I can complete the priorities survey
US1.5	As a Visitor	I want to be able to review the outcomes from all of the surveys I've completed	so that I can review the results to help me make a decision about dealing with my relationship	3	High	1.5.1	I have completed a survey	I click the 'view results' button for that survey	I am shown a summary of information based on my answers
US1.6	As a Visitor	I want to be able to create an account to save my results	So that I can return and review my action plan without starting from scratch	5	Low	1.6.1	I have done some surveys	I click to create an account	I can keep the results after I register
US1.7	As a Visitor	I want to be able to complete the introductory survey	so that general information about myself can be used to give me a customised action plan	3	High	1.7.1	I have visited the i-Decide website	I click the introductory survey button	I can complete the priorities survey
US1.8	As a Visitor	I want to be able to complete the Relationship survey	so that details about my relationship can be used to give me a customised action plan	3	High	1.8.1	I have visited the i-Decide website	I click the relationship survey button	I can complete the priorities survey
US1.9	As a Visitor	I want to be able to complete the Safety survey	so that I can determine if I am safe in my relationship, can be used to give me a customised action plan	3	High	1.9.1	I have visited the i-Decide website	I click the safety survey button	I can complete the priorities survey
US1.10	As a Visitor	I want to be able to complete the Priorities survey	so that details about my relationship can be used to give me a customised action plan	3	High	1.10.1	I have visited the i-Decide website	I click the priorities survey button	I can complete the priorities survey
US1.11	As a User	I want to be able to quickly determine how much of the site I have completed	So I can know how soon I will receive my action plan	3	Mid	1.11.1			
US1.6	As a Visitor	I want to save my progress through a survey, and/or results from surveys	So that I can return and review my results or continue the survey at a later date without beginning from scratch	13	Low	1.6.1	I have finished the surveys I wanted to do OR I am midway through a survey	I click the 'save results' button	System allows me to create an account with a username and password
						1.6.2	I am on the homepage	I click the 'login' button, and enter my username and password	I am able to log in to my account
						1.6.3	I have logged into my previously created account, and I previously completed surveys	I click the 'view results' button on a survey	I can view the results from my previous completion
						1.6.4	I have logged into my previously created account, and I previously partially completed a survey	I click the 'continue survey' button	I can continue the survey from where I left off previously
Epic 2 - Get help to deal with abusive relationships									
US2.1	As a Visitor	I want to quickly exit the site	So that if my partner interrupts me, I can quickly change to another site	0.5	Med	2.1.1	I am anywhere on the site	I click the 'quick exit' button	I am redirected to an innocuous webpage
US2.2	As a Visitor	I want to get information about local agencies I can contact to help me with an abusive relationship without needing to complete surveys	So that I can quickly get access to help if I know my relationship is abusive already	0.5	Med	2.2.1	I am anywhere on the site	I click the 'Resources' button	I am taken to a page with contact details for Womens Welfare Groups

US2.3	As a Visitor	I want to see the recommended strategies after I finish surveys about my relationship	so that I can get strategies based on my situation to help me deal with my relationship.	13	High	2.3.1	I have finished the surveys presented to me	I click the recommended strategies button	The system shows me a list of suggested strategies
US2.4	As a Visitor	I want to be able to see some feedback after each survey	So I can understand my results in the context	5	High	2.4.1	I have finished the surveys presented to me	I click the feedback button	The system shows me some feedback
Epic 3 - Collect data for research									
US3.1	As an Admin	I want to download the collected data from the survey completions	I can use the data to analyse the situation regarding domestic violence	13	Med	3.3.1	I am logged in to my admin account	I select the option to 'download all data'	All data from users survey inputs will be downloaded
US3.2	As an Admin	I want to be able to quickly view statistics about the site	I can determine how the site is being used without downloading the full dataset	8	Med	3.2.1	I am logged in to my admin account	I click to view the statistics	all statics are displayed
Epic 4 - Modify site									
US4.1	As an Administrator	I want to log in to the site securely	so that I can modify the site	8	High	4.1.1	I am on the login page for administrators	I put my user account details into the login box and press OK	I am logged in to the Admin Home page
US4.2	As an Administrator	I want to dynamically Create or Remove surveys using a text-based upload	so that I can remove irrelevant surveys, or add new relevant ones	8	High	4.2.1	I am viewing the list of surveys available	I click the 'add' button	I am taken to an interface where I can upload a new survey text file
						4.2.2	I am viewing the list of surveys available	I click the 'delete' button next to a survey, and confirm I want to delete it	The survey is removed from the system
						4.2.3	A survey has been deleted and a user had previously completed that survey	When the user logs in to their account	They are still able to view feedback for the deleted survey they completed
						4.2.4	A survey has been deleted and a user had previously completed that survey	When the user logs in to their account	The partial completion attempt is not shown, and a message stating that the survey was deleted appears.
US4.3	As an Administrator	I want to dynamically Create new surveys or update existing ones <b>by uploading a text-based survey file</b>	so that I can add new relevant surveys or make changes to existing ones	5	High	4.3.1	I am viewing the list of surveys available	I click the 'edit' button	I am taken to an interface where I can upload a new version of the survey as a text file
						4.3.2	A survey has been edited and a user has completed the survey previously	The user logs in to their account	The user will still be able to view their feedback for their previous completion on an earlier version of the survey
						4.3.3	A survey has been edited and a User has previously completed the survey	The user logs in to their account	They are prompted to re-start the survey.
						4.3.4	A survey has been edited	The data is exported	Different versions of the survey are uniquely identified
						4.3.5	I am viewing the list of surveys available	I click the 'download survey' button next to a particular survey	I download the current version of a survey as a text document, so that I can edit it
US4.4	As an Administrator	I want to use a user GUI to create or edit surveys	so that I can easily create or edit surveys	8	Med	4.4.1	I am viewing the list of surveys available	I click the 'add' button	I am taken to an interface where I can create a new survey using a graphical user interface
						4.4.2	I am viewing the list of surveys available	I click the 'edit' button	I am taken to an interface where I can edit the existing survey using a graphical user interface
US4.5	As an Administrator	I want to edit available action plans and their logic (ie what survey results leads to what suggestions)	so that I can fix errors in the action plans, add new action plans, or change the logic for when the plans are recommended	13	Med	4.5.1	I have logged into the administrator's account	I click the edit action plans button	I can make changes to the action plans
